Muhammad Rio Ananta Fidaus

Web Developer

✉ dev.rioananta@gmail.com   📞 +62-851-5787-637   🔗 *https://bit.ly/RioAnanta*

Seasoned web developer with over four years of dedicated experience in non-commercial projects, I specialize in web development, embracing the latest technologies with enthusiasm. My expertise lies in the React.js and/or Next.js frameworks, where I've honed my skills and fostered a deep passion for crafting dynamic and efficient web solutions. My adaptability to emerging technologies underscores my commitment to staying at the forefront of the ever-evolving web development landscape.

Experience

Full Stack Web Developer (Freelance)   *Apr 2024 - Jun 2024*

Developed a comprehensive online enrollment system for SMKs Korporasi Garut as a freelance project. Utilized React.js for the frontend and Nest.js for the backend, streamlining the enrollment process and significantly improving user experience.

Full Stack Web Developer (Thesis Project)   *Mar 2023 - Jan 2024*

Developed a Marketplace web application using Next.js to facilitate the distribution process for SMKs Korporasi Garut as part of my thesis. This project improved the efficiency of distribution operations and provided a robust platform for managing transactions.

Education

Universitas Komputer Indonesia   *Sept 2019 - Feb 2024*

- Bachelor of Computer Science: Information System
  3.55 GPA

Technical Skills

Analysis Tools

- Unified Model Language (UML): Use case diagram, Activity diagram, Class diagram, Sequence diagram
